- ⇒ **Use the Media Room for doing role-play and presentation practice.**
- ⇒ **Check, check and check again before submitting papers.**
- ⇒ **Check with Mr. Phil when unsure of anything.**

## Spectacular Science

Thursday 18th August, 2016 saw the culmination of many days (weeks for some people) of preparation for the Science Week extravaganza. This year was a first for Ektra, with the activities spread over three campus areas.

There were some amazing projects on display and they were also very well presented - from Y.7 up to Y.12. In the Upper Secondary School team competition, GAC students did very well - as did groups from 11E and 12B.

On the left is the 3rd place winning team from Y.12E, with their "Coffee - Scrub Soap" project. 1st & 2nd places went to Y.12B with their "Robotic Arm" and "Homemade Projector".

Pictured below (left) is the group from Y.11A who got 1st place with their "Hologram World" project: 2nd & 3rd places went to groups from Y.11E with their "Bioplastic" and "Microscope through Phone" projects. On the right is one group from 10A: their **Flavoured Lip Balm** was very popular. There were only two winning projects in Y.10 - both from Y.10A.

A hearty "Well Done" to all students and teachers for a wonderful day.
