Ektra: "Center of Excellence"

Student representatives from all 7 GAC classes are pictured above at the award ceremony on Monday 14th November, 2016 - with both Ektra and ACT staff - listed above left.

There are currently over 200 Approved Teaching Centers throughout the world, and only twice before has the "Center of Excellence" been awarded. Sararas Ektra School is the first school outside of China to get this award.

The students had the chance to put questions to our honored guests, and they were rewarded with words of praise and encouragement from both Mr. Andrew and Mr. Pier.

Students from Sararas Ektra School have shown a solid commitment to both their Thai studies and the GAC, and have achieved some outstanding results. The first class of students - GAC '1' are now graduating with their Bachelor's Degrees from numerous universities - in Thailand and abroad.
