

2nd February 2015

Topic Invitation to join Primary Year 1 Multiple Intelligences Academic Fun Fair 2014

To Parent of Mstr. / Miss.....Primary Year...../.....

Sarasas Ektra School encourages student's development through MI theory (Multiple Intelligences: MI). MI activities in the Primary year 1-3 concentrate on students using their learning skills based in Multiple Intelligences. Developing student's skills are an important base that helps improve student's learning for the next level as we don't focus on a specific Intelligence yet, rather having students sample and try all Intellegences.

The student's activity development in Primary Department of Sarasas Ektra School will set up shows for student's MI activities 2014 from students in Primary year 1. It is the result of studying one class per week through this academic year and the work is from MI theory, in each subject. **We are inviting all parents to join the activity on Wednesday 4th February 2015 from 8 am - 11 am at the Auditorium, 4th Fl., Building 6.** We invite parents to support your children at this years' MI Academic Fun Fair.

For your acknowledgement. Please reply using the form below, **and return to class teacher by Tuesday 3rd February 2015**, so that the school can prepare parking for your convenience.

Sincerely yours,

(Mrs. Supawadee Chotiwannaporn)

The Vice Director of Academic Department: Primary, and SecondaryDept.

Note:

1. Register to join the activity at the Auditorium, 4th Fl., Building 6 at 7.30 am- 8 am.
2. Parking will be at the court 1, 2, and under building 6.

Acknowledgement SES.227/2014
