Summer's Gone 2019

⇒ **E**njoy the break after Summer School, and refreshed now?

Keep on using your English so that your skills are forever and ever improving.

To be successful is the goal of all, so take each step carefully and you will succeed.

Remember, you are doing the GAC course for you - so you be the one to ask when not sure of anything.

Attention to detail is important - follow all instructions and you cannot go wrong.

GAC '11'

Yes, the title above is correct. Ektra is now into the 10th year of delivering the Global Assessment Certificate (GAC) program, and our latest intake are in fact GAC '11'. They produced some very good work during Summer School classes last month.

The pictures here are of new GAC students at a workshop on Tuesday 28th May where they completed activities to find / show their IKIGAI. They certainly seem to be on track.

ACT Visit

Tuesday 14th May saw a very welcome return visit by Ms. Christine Hoe (Regional Academic Director) and also the first visit to Ektra for Mr. Pawan Adhikari (Regional Director - Global Business Development) here pictured with the Ektra GAC DoS Mr. Phil Langley. A meeting discussed

the future plans for the GAC program, and how else ACT can help all students at Ektra - for them to be successful in their studies, and to become more confident users of English. We look forward to all the help they can offer Ektra students, and seeing them back again very soon.
