Coming Soon

- **Semester end break**
Starting 26th October
- **Semester 1 Report Cards**
Saturday 7th November
- **Semester 2 begins**
Monday 9th November

GAC023: AE2

One of the most interesting of the assessments in Level 3 is the Scientific Environmental Survey. Pics below show students from Y.12A & Y12B busy at Bang Krachao on 7th October...happy to be out of the classroom.

Semester 2

⇒ **E**very year there are many activities, so plan ahead to make sure you can do all you need to do.

Kee an eye on your deadlines and important dates - you don't want to miss anything.

Take the time to relax between assessments and activities - we all need to chill.

Remember it is you who is in control of your planning and the ability to carry out your plans.

After the break, return to school refreshed and ready for the challenge of the new semester - 2021 is almost here.

Mr. Miles (on loan from Y.7) was there to give his help and advice to students. Many tests were done on site, and others were done in the lab on return from the park. The completion of the final report is a major step for the GAC students to edge ever closer to their goal of graduation early next year.
