- **AFR Day**
22nd December
- **Christmas Holiday**
23rd December-2nd January
- **Mid-Semester Exams**
3rd - 12th January

Positivity

Enjoy the unexpected, even when it is not what you expected originally.

Kee a gratitude journal, and write down all your positive actions.

Tell someone you know that they did a great job (and mean it).

Remind yourself "Never a failure, always a lesson". Make every failure a new learning opportunity.

Accept that things do not always turn out as you want them to, but learn from your mistakes.

Environmental Study

One of the many major assessments in Level III is the Science Environmental Study for which students need to survey an area and do many types of tests before returning to school and writing up their findings in a fully academic report. Pictures show some year 12 students and their science teacher, Ms. Imee, collecting the required data for the assessment paper. A hot and tiring day, but good to be out of the classroom for a change.

GAC '16'

Seems hard to believe that we are now taking students in for the next academic year..the 16th GAC cohort. All 27 students who sat the Entry Test on 25th November...passed.
